FATE OF PORTSMOUTH CONFERENCE IN DOUBT

Little Hope That the Japanese Will Abate One Jot of Their Demands.

Emperor's Instructions Not Yet in the Hands of M. Witte-Negotiations May Be Prolonged Through Efforts of President Roosevelt.

from St. Petersburg indicate that the emperor and his counselors are unshaken in their determination neither to cede territory nor pay war tributes. What the president is doing on the Japanese side remains as deep as mystery as ever. Little light is shed upon Japanese side remains as deep as mystery as ever. Little light is shed upon the visits of Baron Kaneko to Oyster. the visits of Baron Kaneko to Oyster Bay. The Japanese do not even admit that he is their-medium of communication with the president. They go no further than to reiterate that Mr. Roosevelt understands their position and that they have the fullest confidence in him. They show not the slightest indication that they have in any wise, hanged their position or are prepared. changed their position or are prepared to yield more than they were last Friday when the plenipotentiaries adjourned until Tuesday,

Situation Will Be Unchanged.

If Mr. Witte does not receive fresh instructions before 3 o'clock tomorrow afternoon, when the conference resumes, therefore, the situation will be exactly what it was when the situation will be

exactly what it was when the adjournment was taken on Friday.

It is safe to assume that in the absence of such a reply the conference will be prolonged beyond tomorrow and every delay, in the opinion of the president's friends dent's friends, means hope, faint though it may be. President Rooseveit's object was officially described today as being to "prolong the negotiations."

though it may be. President Roosevelt's object was officially described today as being to "prolong the negotiations."

Witte's Attitude.

There is warrant for the statement that M. Witte personally sympathizes with the president's proposition, for matter how it may be regarded by his imperial master and the latter's advisors. It is a mistake to suppose that in considering such a proposition for emperor consults a regularly ordained council. Throughout the conference he has been calling in counsel such ad-

There are evidences here that co-operation by Great Britain would have

been resented by Japan.

Among the Japanese the note of hope is not sounded. With general reluct-

ance they seem almost resigned to the shipwreck of the conference. They declare that their position is unchanged and they speak of renewing their war with a snap of their black eyes which speak volumes for their confidence in speak volumes for their confidence in the success of Oyama when the word is given to advance.

VALUE OF SAKHALIN.

Why the Russians Are Loath to Give Up the Island.

Portsmonth, Aug. 21.—The following statement from an authoritative source represents the Russian view of the miland strategic value of the island

"To appreciate its military value it must be borne in mind that the island, must be borne in mind that the isfand, which is about 600 miles long, lies almost against the mainland, being separated from it by the strait of Tartarin, which in some places is only four miles wide. Physically it might almost be considered a part of the Asiatic continent. To allow Sakhalin to pass into the hands of Japan would be like America allowing Long Island siatic continent. To allow Samulation pass into the hands of Japan would be like America allowing Long Island. The England allowing the Isle of Wight to pass into the possession of an ambitious foreign power. The danger from Sakhalin passing to Japan would indeed be greater for Russia than the loss of Long Island by America, as the loss of Long Island is scarcely one
Long Island is scarcely one
Long Island is scarcely one
Blakesley has been writing threatening letters to Governor Pardee and ening letters to Governor Pardee and ening letters to governor Pardee and the latenance of the continuation of the continuat

through the sea of Japan. The island has an area of between sixty and sixty-five kilometers and although its gen-eral shape is that of a fish at certain its width is only fifteen mi It is therefore peculiarly adapted for offensive and defensive purposes. It could easily be transformed into a formidable military and haval strongformidable inhiary and naval strong-hold from which expeditions might be launched and efficiently supported. Little use has thus far been made of the island. The population, including the natives, who belong to the Aino and Cuiliaks races and the exiles, most of whom after their terms of servitude, become settlers, amount altogether to Ks races and the exiles, most after their terms of servitude, titlers, amount altogether to souls, that is, less than one uare mile. Exploitation of tees of the island has been by the rigorous climate, lack. become settlers, amount altogether to only 36,000 souls, that is, less than one the resources of the island has been hampered by the rigorous climate, lack of communications, and it is almost without roads and covered by almost inaccessible forests.

"I am going home, still in the harness. I am quite sure that my trip has been satisfactory to me, and I believe has been satisfactory to all concerned.

RUSSIAN REPLY BEING FRAMED

Ground for Hope That the Conference May Terminate Happily.

COMPROMISE IS POSSIBLE

ROOSEVELT'S EFFORTS HIGHLY APPRECIATED.

S T. PETERSBURG, Aug. 22, 1:10 a. PORTSMOUTH, N. H., Aug. 21.—The result of President Roosevelt's effor food, the oil is extracted and the for foot so save the peace conference from failure remains in suspense. No direct reply to the president's proposition communicated by M. Witte yesterday has come from Emperor Nicholas today, but other advices received as today, but other advices received from St. Patershurg indicate that the final rules and restrictions, the observed of the sale statements to M. Witte, outling the course that he shall pursue at the reopening of the peace conference at Portsmouth, are still in process of being put into cipher prior to being forwarded to America. With the receipt of St. Petersburg's late message, the brief breathing spell will have ended. St. Petersburg leaves the final word with her representative at Portsm .- The Russian government's finword with her representative at Ports-

Russia Sincere.

The Associated Press is in a position o state that when the nature of these communications becomes generally known it will be seen that in a sincere desire to effect a satisfactory settlement the government has gone as far as its extremely vital state interests will permit. It can furt ? r be said that for this reason the government is firmly convinced that in case of failure of the negotiations the responsibility will not rest with Russia, which has conceded much already. While it is im-possible to learn the actual contents

"The insignificant military forces which Russia had in the island," he centinued, "are another proof of our sincere belief in peace. We had not made the least preparation for military operations either offensive or defensive. The few thousand soldiers who were there were there chiefly for the purpose of guarding the 5.000 convicts who were of the government's communication to M. Witte, it can be declared that the requirements of the state make concessions of the questions of indemnity of guarding the 5,000 convicts who were kept in the island, and some of these soldiers were former convicts who after having served their term of penal servitude were allowed to provide the service of and Sakhalin, as these questions we originally presented by the Japane

Given Due Consideration.

It is certain that in the matter concession the four points now in disoute have been considered and studie tere in the light of concessions Russia Russian Jews Send Memorial to M. lready has granted on the other eigh

The foregoing is a brief but accurate outline of the platform upon which M. Witte will meet the Japanese plenipotentiaries today.

INFERNAL MACHINE SENT BY MAIL

Captain Miles O'Reilly of the New York Police Force in Receipt of an Innocent Looking Box Intended To Kill Him.

NEW YORK, Aug. 21.—Guncotton enough to kill a man, arranged in an infernal machine and disguised as a gift cigar box, was received today by Precinct Police Captain Miles O'Reilly. This is the third deadly explosive instrument of similar construction sent through New York mails in the last four days, the last two having been received last Friday by Jacob H.

Captain O'Reilly received a cigar box which in weight and every other detail misled him into taking it for a genuine present: Unusually heavy and tenacious nails fastening down the cover, however, caused a suspicion. When the box had been carefully opened at the ends, matches were found glued to the inner surface in such a manner that they would be ignited on emery paper by the friction necessary to raise the lid.

The police found that days of the five civilized tribes met here in convention today to declare for separate statehood for Indian Territory aided and abetted by white resibeen received last Friday by Jacob H.
Schiff, the banker, and M. Guggenheim's Sons.

The police found that flares of one of the half dozen matches would have caused the death of Captain O'Reilly.

Porter, state health officer, today re-ceived an order from Surgeon General Wyman of the marine hospital service

to disinfect and hold five days all ves

HYDE IS HEARD FROM

"I have just seen for the first time the revised cotton acreage report, issued by the United States department of agriculture on July 28. The crop estimating board reduces the official estimate of June 2 by more than 1,100,000 acres and even goes so far as to say that I made the estimate lower than the reports received from official. than, the reports received from official reporters employed by the bureau warranted. To this statement I give unqualified denial and assert that the most trustworthy of the various sets of figures on which the report of June 2 was based, afforded the most ample warrant for my estimate.

"It is only by an entire disregard of the reports of county and township correspondents that the department's acreage reports can be prevented from once did. more becoming the laughing stock of the world. When concerned only with the condition of the growing crop, except under special circumstances, the reports of county and township correspondents are without value. When, however, these correspondents report either upon the acreage or upon the size of the crop in bales, their reports are absolutely worthless.'

Muscogee, I. T.. Aug. 21.—The chief-taincy of the five civilized tribes met here in convention today to declare for separate statehood for Indian Ter-ritory aided and abetted by white resi-dents of Indian Territory who for both business and sentimental reasons are opposed to the union with Oklahoma. This is the first time the tribal citizens

of Indian Territory ever assembled for the purpose of notifying congress that they are ready for statehood.

Many leaders in this separate statehood convention say privately that while they would prefer separate statehood yet they believe that only joint statehood will be given to the treatment. statehood will be given to the two territories. The convention was to make and adopt a state constitution. It is convicted of murdering his father-inprobable that the actual work will be delegated to a committee authorized to submit the constitution to the people Heusack maintained his innecessed.

It occurs in the form of wulfenite, associated with lead carbonates in this instance, and the ore is low grade, so that it will need to be subjected to concentration. Already concentrates have been made that carry values something better than \$300 a ton. The ore is in crystalline form and closely resembles yellow mica, for which product it has been frequently taken. No shipments have yet been made, but a considerable amount of the concentrates are now at the mill. The process of concentration differs somewhat from that required for silver-lead products, but the adjustments for this class of work have been determined. It occurs in the form of wulfenite,

Product Easy to Market.

Mr. Crowther has been negotiating for the sale of this product, which is not a difficult task, and has found in one house a market for 10,000 tons of the molybdenum concentrates, which at \$300 a ton will amount to the modest sum of \$3,000,000 These values have been known to Mr. Crowther for some months, but he has refrained from reasing the facts until the process leasing the facts until the process of handling the product has been solved and the value of the product and the extent of the deposit had been fully determined. The ore occurs in what is known in the middle tunnel in a vein that varies from 40 to 60 feet wide and 400 feet long. Of this concentrating product he states that several hundred thousand tons have been been deposed. eries for treatment. Mr. Crowther vho, for years, was metallurgist for the belamar interests, states that the same metal occurs, though in different form, in the Bingham porphyries. There it is a sulphide and is known as molyb-

issued when the members of the popular are satisfied that the applicant has not been in an infected district within a reasonable length of time. The quarantine becomes effective as soon as orders can be issued to the guards on the state line.
